3.81

Environment enhancement to promote psychological well-being.

At the time of inspection, there was no documented program of environmental enhancement for the nonhuman primates housed at the facility.

An adequate environmental enhancement program is essential in promoting the psychological well-being of non-human primates. Dealers, exhibitors, and research facilities must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of non-human primates. This plan must be made available to APHIS upon request.

Correct by 5/20/2026

This inspection and exit interview were conducted with the facility representative.
