Type: ROUTINE INSPECTION
Date: 22-JUL-2014

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

**** The facility does not employ a full-time veterinarian and there was no written program of veterinary care available at the time of inspection. A written program of veterinary care is required for facilities which do not employ a full-time veterinarian. That program of veterinary care must be made available for review during inspections to ensure adequate veterinary care is being provided. The licensee must follow a written program of veterinary care as directed by the attending veterinarian and make it available during inspections.

To be corrected by:8/5/14

2.75(b)(1) REPEAT

RECORDS: DEALERS AND EXHIBITORS.

**** No Record of Animals on Hand (APHIS Form 7019) or Record of Acquisition, Disposition, or Transport (APHIS Form 7020) were available at the time of inspection. Records with appropriate information of the covered species must be maintained at all times in order to properly identify and trace the origin/destination of the animal. A record keeping system must be established and kept up to date. APHIS Form 7019 and 7020 were provided to owner. Affects all covered species.

3.81

ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.

**** There was not an environmental enhancement plan (EEP) on hand to adequately address the psychological well-being of the nonhuman primates. The EEP must be reviewed and approved by the attending veterinarian. There are many sources that can assist in developing a plan for nonhuman primate enrichment. The Psychological Well-Being of Nonhuman Primates published by the National Research Council is one source. There is no plan denoting the enrichment and no log book or calendar showing that enrichment takes place. The animals do have different items in their enclosures, but there is no schedule of rotating or changing the items in the pens. The enrichment must be documented on the environmental enhancement plan, and the plan must be followed.

To be corrected by:8/5/14
