Type: ROUTINE INSPECTION
Date: 06-FEB-2018

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

There were no records available which fully and correctly disclosed the required information on the disposition of the hedgehogs that had been held at the facility. On 02/11/2017 a total of 30 hedgehogs were acquired to begin breeding. In October 2017 the business was sold with a total of 29 hedgehogs. Licensee stated she did not know the number or maintained records of hedgehogs that had been born, sold or donated during the time frame she had the hedgehogs. Maintaining a current records of animals, including those acquired and disposed of, is required in order to be able to accurately track animals being utilized in regulated activities and to ensure their humane care and use.

Make, keep and maintain records which fully and correctly disclose the required information regarding acquisition and disposition of animals other than dogs and cats.

To be corrected by: next inspection

3.4(b)(2)

OUTDOOR HOUSING FACILITIES.

Along the back row the outdoor enclosure housing one adult dog named "Juno" did not have a wind/rain break at the entrance to the shelter. Near the road the 5 outdoor enclosures housing the malamute dogs did not have a wind/rain break at the entrance to the shelters. Not providing a barrier from the elements in the form of a wind and rain break can result in a dog becoming wet, uncomfortable and unable to maintain a safe body temperature.

All dogs must be provided with shelter from the elements which includes wind and rain breaks at the entrance to shelters.

To be corrected by: February 20, 2018

3.4(c)

OUTDOOR HOUSING FACILITIES.

Inspection Report

The plastic shelter in the outdoor enclosure housing 3 malamute dogs named "Phoenix", "Sarabi" and "Eva" is severely chewed, ripped and worn leaving a large opening at the front. Severely chewed, ripped and worn surfaces are no longer impervious to moisture. These areas cannot be readily cleaned and sanitized which can lead to disease hazards for the dogs.

All surfaces in contact with the animals must be impervious to moisture. They must be maintained on a regular basis and when they can no longer be readily cleaned and sanitized they must be replaced when worn or soiled.

To be corrected by: February 20, 2018

This inspection was accompanied by Colorado Dept of Agriculture, PACFA Inspector and the licensee. An exit briefing was conducted with the licensee.
