Type: ROUTINE INSPECTION
Date: 04-FEB-2014

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

There is a tube of Animax (Nystain-neomycin sulfate-thiostreptor triamcinolone acetonide) ointment with an expiration date of 11/2013. There was a bottle of Ultra Care Flea and Tick Spray with an expiration date of 09/2013. There was a bottle with a clear thick liquid with no labeled stating what it was, purpose, dosage, or an expiration date. These medications were found intermingled with other medications in the storage container located in the isolation room and are therefore considered ready for use. Expired medications can experience spoilage or have reduced efficacy. This could lead to prolonged illness or suffering for the animals needing the drug. Ensure that all medications used in the facility are not expired and labeled properly in accordance with standard veterinary practices.

To be corrected by: February 6, 2014

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

There were no documentation/records available during the time of inspection with the required information on the acquisition of 2 Hedgehogs that the owner stated were donated to the store on 12/16/2013. Maintaining current records of animals on hand, including those acquired and disposed of, is required in order to be able to accurately track the animals. Make, keep and maintain records which fully and correctly disclose the required information regarding acquisition and disposition of animals other than dogs and cats.

To be corrected by: February 10, 2014

Inspection and an exit briefing was conducted with licensee.
