Inspection Report

Wild Reptiles L L C
1695 Wadsworth Blvd., Suite A
Lakewood, CO 80214

Customer ID: **330600**
Certificate: **84-B-0126**
Site: 001
Wild Reptiles, L L C

Type: ROUTINE INSPECTION
Date: 19-JUN-2014

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

2.75 (b) (1) Records.

No records available at the time of inspection listing the current inventory of animals on hand. Licensee had intake (acquisition) and out-take (disposition) records available, but could not match the acquisition and disposition forms to get a complete inventory. There was one hedgehog in the back area of the store that the facility representative stated they did not have an intake (acquisition) record. Maintaining current records of animals on hand, including those acquired and disposed of, is required in order to be able to accurately track the animals.

Make, keep, and maintain records which fully and correctly disclose the required information regarding acquisition and disposition of animals other than dogs and cats.

To be corrected by: Next inspection

3.125(a)

FACILITIES, GENERAL.

3.125 (a) Structural Strength.

On the left lower shelf at the front of the entrance to the back animal room is a cage housing 2 adult chinchillas. The cage is up against the wall where the chinchillas are chewing the paint, drywall and have access to an electrical outlet which can cause medical issues and injuries to the animals.

Located in the back inside the feeder room is a young goat sitting in the corner in a large metal container. Facility representative stated this is where the goat is housed at night. The container is not large enough and does not properly contain the animal. The animal can jump out of the container and become injured. During the inspection the facility representative moved the goat to the front of the store where the animal is held during the day to a large wood enclosure holding a turtle. The goat jumped out of the enclosure and ran around on the slick tiles of the store where the animal could have escaped out the door or become injured on the slick floor.

Inspection Report

Maintain all facilities so that are constructed of such materials and strength appropriate for animals involved and are structurally sound and in good repair to protect the animals from injuries and to contain them.

To be corrected by: June 23, 2014

Inspection and an exit briefing was conducted on site with APHIS personnel and facility representative.
