Records: Operators of auction sales and brokers.

At time of inspection, there was no acquisition record for the three chinchillas for sale that were acquired via public surrender. Not having required records for review impedes the inspection process of ensuring animal welfare. Every broker shall make, keep and maintain records which fully and correctly disclose information concerning each animal consigned for sale; specifically the name and address of the person who owned the animal for sale and their vehicle license number, State and driver's license number if they are not licensed or registered under the Animal Welfare Act.

Correct by making and maintaining required acquisition record by 18 July 2023.

This inspection and exit interview were conducted with facility representative.
