CREATURE COMFORTS PET RENTAL SERVICE

Type: ROUTINE INSPECTION
Date: 02-FEB-2018

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The Program of Veterinary Care (PVC) does not include the Red Fox or other species (sugar glider) that were previously present at facility. The Attending Veterinarian has not visited the facility or reviewed/updated the existing PVC since December 2016.

Failure to have specific accurate guidance does not ensure the attending veterinarian is aware of the current practices or species present at the facility or that the facility has accurate guidance to provide adequate veterinary care to all animals. Failure to conform to these requirements could have a negative impact on the health and well-being of the animals.

The written Program of Veterinary Care should be reviewed and updated at least once per year and should address all species. The Attending Veterinarian should visit the site and provide guidance on animal care issues for all species on a regular basis; at minimum annually. The facility should work with the Attending Veterinarian(s) to update the written Program of Veterinary Care, schedule regular visits with the Attending Veterinarian, and ensure that the animal care procedures outlined in the written Program of Veterinary Care are followed, in order to advance the health and well-being of the animals. To be corrected by 3/10/18.

This inspection and exit interview were conducted with facility representative.
