S & S Farms, LP
1650 Warnock Drive
Ramona, CA 92065

Customer ID: **3684**
Certificate: **93-A-0218**
Site: 003
S & S FARMS

Type: RE-LICENSE INSPECTION
Date: 26-SEP-2022

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

One of the breeding sows was observed to have excessively long rear toes on both feet. Feet need to be kept properly trimmed in order to prevent a more serious situation from developing such as an injury to the toe or joint issues. Trim this sow's rear toes. Keep all animals' hooves properly trimmed.

3.128

Space requirements.

Most breeding age sow pens contained too many animals. The facility is currently housing six or greater number of sows in these pens. Primary housing enclosures should allow each animal to make normal postural and social adjustments with adequate freedom of movement. Nearly all the sows housed in these pens had skin scrapes and wounds indicating that the increased population density is leading to an increase in the aggression between individuals that is normally seen in these animals. Provide these animals with more space.

This is a 1st Re-License Inspection for a Class "A" license. The inspection and exit briefing were conducted with facility representatives.

All items must be in compliance within 2 more inspections or by November 26, 2022 or the applicant will forfeit the license
